PROFESSIONAL SUMMARY

UI/UX Designer and Front-End Engineer with 10+ years of experience designing and building responsive web and mobile products, including B2B SaaS platforms and consumer-facing applications. Takes products from requirements through user flows, wireframes, Figma prototypes and production-ready front-end code. Works directly with clients, product owners and developers to improve usability, accessibility and design consistency. Uses AI-assisted workflows with Claude for design and code, building reusable skills and standardized rule sets that cut repetitive work, speed up delivery and keep output aligned with client requirements. Experienced in leading small teams (2–7 members) in Agile/Scrum environments.

CORE SKILLS

UX & Design: User Flows & Journey Mapping · Wireframing & Prototyping · Information Architecture · Design Systems · Usability Testing · UX Research & Competitive Analysis · Mobile-First & Responsive Design · Android & iOS App Design

Design Tools: Figma · Adobe XD · Photoshop · Illustrator · Sketch (basic)

Front-End: HTML5 · CSS3 · SASS/LESS · JavaScript · jQuery · Bootstrap · Tailwind CSS · Angular (14)

CMS & Analytics: WordPress · Drupal · Google Analytics · SEO basics

AI-Assisted Workflow: Claude & Claude Code · AI-Assisted UI/UX Design & Prototyping · AI-Assisted Front-End Development & Code Review · Custom Claude Skills for Repeated Tasks · Standardized Rule Sets & Prompt Templates · Requirement-to-Spec Conversion

Collaboration: JIRA · GitHub · Assembla · BrowserStack · Agile/Scrum · Developer Handoff · UX Documentation

PROFESSIONAL EXPERIENCE

Senior Front-End Engineer (UI/UX) | Aecor Digital International Pvt. Ltd., Vadodara*Oct 2023 – Present*

- Lead UI/UX and front-end for Prolius, a fleet management SaaS platform, owning design-to-code across desktop and mobile using HTML5, CSS3, Tailwind CSS and JavaScript.
- Created wireframes, mockups and interactive Figma prototypes for Android and iOS apps, and handed off specs to developers for accurate, responsive implementation.
- Work directly with clients to refine requirements, propose solutions and plan delivery milestones.
- Improved usability, accessibility and responsive performance through UI reviews and workflow optimization, resulting in [add result, e.g. 70% fewer support queries / 60% faster task completion].
- Contribute to product experience decisions alongside stakeholders and development teams.
- Use Claude in an AI-integrated workflow for UI/UX design and front-end code, from turning client briefs into user flows and screen specs to generating, refactoring and reviewing HTML, CSS, Tailwind and JavaScript.
- Built custom Claude skills for daily repeated tasks (component scaffolding, responsive layouts, UI review checklists, developer handoff notes), reducing manual effort and turnaround time [add result, e.g. 72% faster delivery].
- Defined a standardized rule set for these skills covering design-system tokens, coding conventions, accessibility checks and client requirement checklists, so output stays consistent and accurate across projects.

Senior Web Developer | Cloudester Software LLP, Vadodara*Jul 2023 – Oct 2023*

- Built responsive interfaces for a large-scale gifting platform using Angular 14 and SASS.
- I partnered with designers and product teams to improve customer experience and visual consistency.
- Ensured cross-browser compatibility, accessibility and performance across the application.
- Worked in a 7-member Agile team: sprint planning, UI discussions, live bug fixes and release management.

Front-End Engineer | Investis Digital Communication Pvt. Ltd., Vadodara*Nov 2019 – Jun 2023*

- Delivered enterprise CMS and responsive web solutions for multilingual client sites, focused on usability and engagement.
- Collaborated with clients, designers and developers to ensure UI/UX requirements were implemented accurately.
- Ran extensive cross-browser and responsive testing to keep experiences consistent across devices.
- Improved internal workflows, design consistency and interaction patterns across projects.

Front-End Developer | Tristate Technology, Ahmedabad*May 2019 – Nov 2019*

- Developed and customized client websites to W3C standards and UI/UX requirements, as part of a 3-member team.

Web Designer | The Anuswara Inc., Ahmedabad*Oct 2016 – May 2019*

- Led a 3-member design team, managing timelines, client revisions and quality control.
- Designed and upgraded websites using current UI/UX and web technology trends.

Technical Assistant | Xira Infotech, Vapi*Jun 2015 – Oct 2016*

- Delivered responsive, cross-browser-tested websites and performed upgrades; handled graphic design tasks.
